

Sunday was Bath Classic Mcc's last trial of the year at Binegar Quarry and hopefully everyone enjoyed it. We had a great entry of 87 riders which is a large number for Bath. The course was set out to remain consistent whatever the weather which is why we kept all the sections in the main quarry. The scores show that there was something for everyone with a very small number of cleans in each category and no individual section taking a lot of marks. The 2 cleans on the A route went to John Roberts and Tim Wheeler with a lot of low scores from occasional dabs. 50/50 honours went to Merv Walker on his Fantic. The B route again had 2 cleans, Kevin Westlake taking one and Jon Cull on his rigid the other showing that you don't need all the fancy suspension to put in a good result. The C route attracted 4 cleans from Brian Ayres, Richard Clarke, Tom Berryman and Nick Rundle. It was entertaining to watch Tom go through section 1 as though he was at a motorcross event.

The 50/50 route attracted 12 riders with the C route having 10 which shows they are a useful addition to the Bath Classic trials.

As always we are extremely grateful for the observers who had to contend with the wind and rain although it did give us a chance to test the new waterproof score cards which worked extremely well.

Thanks also have to go to Janet and Chris Wrigley, Phil Reed and Sandy James for making all the Bath Classic trials possible.
