

Bath Classics Emborough evening trial was a long day for the Team but having so many competitors turn up made it well worth the effort. The forecast rain held off so there was plenty of grip available. It was the usual for Emborough of a few rocks, roots, logs and off camber turns although we did find some new ground for a couple of the sections.

Some new to Bath and new to trials riders competed as well as the regular competitors. It's always great to see some younger riders competing all on the A route and riding well.

A loose front wheel on his very tidy Bultaco didn't stop Ray Perkins putting in a great result on the A route. 1 of only 2 cleans, the other being Heath Brindley on his ex works TRS.

Andy Willcocks had his TY 175 out for the first time, it's a new build which is well worth a close inspection. Unfortunately a rear flat meant a non finish from a very well sorted bike.

Colin Bentham was on his lovely AJS rigid and riding well until a reluctant engine stopped play temporarily, a bit of tinkering and he got it running again.

A fun trial that judging by the feedback was thoroughly enjoyed.

Our next trial will be Sunday September the 28th at Emborough with a 10.30 start and Observers as usual.

A huge thank you to everyone who competed, Steve the landowner and last but definitely not least the Bath team who put in so much effort.
